What will be written your grave?

Here lies

## Will Rogers

I never met a  
man I didn't  
like.

### What is an epitaph?

An epitaph refers to text that is inscribed on a tombstone. Many of the best epitaphs are very short, such as one or two lines, and should not typically exceed six lines. While there is no specific format for the information that must be included, keeping the epitaph short challenges the writer to sum up your life.

Tailor the emotion of the epitaph to what you want to be remembered by. Epitaphs may be humorous, ironic or heartfelt. Whatever its emotional mode, it'll be your last words.
